University of Washington
Institute for Public Health Genetics
Annual Ph.D. Student Progress/Planning Form

This form should be completed by each student (including on-leave students) during the autumn quarter of each academic year. The student should then meet with his/her advisor(s) or dissertation committee members to review, modify if needed, and approve his/her progress and plans for the academic year. Once finalized, the student and both of his/her advisors sign the last page of the form. The student is responsible for filing the signed form with the IPHG office before the end of autumn quarter.

Student Name: _____ Quarter form completed: _____

Student Email: _____ Student Number: _____

Quarter Entered Program: _____ Faculty Advisors: _____

_____

Requirements for Ph.D. in Public Health Genetics (minimum 90 credits required)

[Highly Recommended Courses]; *Substitute courses*

I. Coursework for Fundamental areas of study (at least 17 credits required)

- Human Genetics
- Public Health

Human Genetics Course No.	**Course Title:**	**Quarter Planned**	**Quarter Completed**	**Credits**	**Grade**
PHG 551	Human Genomics: Science, Ethics, & Society				
OR GENOME 565	*Advanced Human Genetics*				

Public Health Course No.	**Course Title:**	**Quarter Planned**	**Quarter Completed**	**Credits**	**Grade**
EPI 511	Intro to Epidemiology				
OR EPI 512/513	*Epidemiologic Methods*				
BIOST 511	Medical Biometry I				
OR BIOST 517	*Applied Biostatistics I*				
[BIOST 512/513	Medical Biometry II/III]				
[BIOST 518	Applied Biostatistics II]				
HSERV 511	Intro to Health Services & Public Health				
ENVH 511	Environmental Occupational Health				
OR ENVH 517	*Children's Environmental Health*				
OR ENVH 570	*Occupational and Environmental Epi*				
OR ENVH 577	*Risk Assessment for Env Health Hazards*				
OR ENVH 584	*Occupational Health & Safety: Policy & Politics*				

University of Washington
Institute for Public Health Genetics
Annual Ph.D. Student Progress/Planning Form

II. Coursework in Core Knowledge Areas (21 credits required)

Core Knowledge Area A: Genomics in Public Health

Course No.	Course Title	Quarter Planned	Quarter Completed	Credits	Grade
PHG 511	Genetic Epidemiology				
PHG 513	Intro to Pharmacogenetics and Toxicogenomics				
PHG 542	Genetic Discovery in Medicine and Public Health				

Core Knowledge Area B: Implications of Genetics for Society

Course No.	Course Title	Quarter Planned	Quarter Completed	Credits	Grade
PHG 512	Legal, Ethical and Social Issues in PHG				
PHG 521	Culture, Society, & Genomics				
PHG 522	Ethical Frameworks in Public Health Genetics				
OR PHG 525	*Public Commentary on Ethical Issues in PHG*				
PHG 523	Genetics and the Law				

III. Seminars (Minimum 6 credits of PHG 580 required)

		Quarters completed	
PHG 580	PHG Seminar		
PHG 600	Ph.D. Seminar (Required every fall/winter/spring quarter following completion of General Exam)		

IV. Selective Courses (9 credits minimum)

Course No.	Course Title	Quarter Planned	Quarter Completed	Credits	Grade
[PHG 518	Computer Demonstra. in Genetic Epidemiology]				
[PHG 519	Statistical Methods in Genetic Epidemiology]				
[PHG 536	Bioinformatics & Gene Sequence Analysis]				
[B H 552	Advanced Qualitative Methods]				
[GENOME 552	Technologies for Genome Analysis]				

University of Washington
Institute for Public Health Genetics
Annual Ph.D. Student Progress/Planning Form

Selective Courses (Continued)	Quarter Planned	Quarter Completed	Credits	Grade

V. Dissertation Credits (minimum 27 credits)

	Quarters Planned	Quarter Completed	Credits
PHG 800 Dissertation Credits			

Total Credits:

Preliminary Examination Planned Date: **Completed Date:**

General Examination Date: **Completed Date:**

Dissertation Supervisory Committee

	Member Name	Department	Core Area A or B	APC Mem. (Y/N)	Auxiliary Faculty Mem. (Y/N)
*Chair:					
*Secondary Member:					
Member:					
Member:					
Member:					
*GSR:					

*See Ph.D. Guidelines, Part 2, Section IV
