

Alliance

for Child Welfare Excellence

Categories for Caregiver Continuing Education

In the first three year licensing period, the foster parent must complete 36 hours of caregiver continuing education(CCE) training that includes at least one training from each of the three competency categories and at least one of these must be culturally-based (as marked below with *).

You are encouraged to take up to 18 hours of CCE between the time you submit your application and you receive your license, as these hours will carry over to your first 3-year licensing period.

During the second three year consecutive licensing period, the foster parent must complete 30 hours of CCE training that includes at least one training from each of the three competency categories and must include a cultural competency training (marked below with *).

You may carry 12 hours of caregiver continuing education from one licensing period over to the next licensing period.

During all subsequent three year licensing periods, the foster parent must complete 24 hours of CCE training from any competency category.

Some of the trainings encompass multiple categories and may appear in multiple columns below.

Trainings available via eLearning are noted below and italicized.

Trainings that qualify for cultural competency credit are marked below with an asterisk.
