

2012 University of Washington Advising Summer Summit

Sponsored by the [Adviser Education Program](#) (AEP)
& the [Association of Professional Advisers and Counselors](#) (APAC)

Expanding Boundaries

In pursuing higher education, students expand their boundaries—they leave their previous lives to join a community of learners; to embark on a journey of discovery, both of self and the world around them; and to look at and think about things in new ways. As their advisers, we help to expand their boundaries, encouraging them to try new things; consider other perspectives; gain empathy, critical thinking, and sound judgment; and define themselves in the process. The sessions chosen for today's Summit reflect on this theme, encouraging us to break down old ways of thinking and open ourselves to new perspectives and experiences. We can all continue to grow and evolve; we can all continue to expand our boundaries.
