208 Television Rules

- The TV is to remain in 208.
- Do not use laser pointers for the TV, lasers over a long period of time can damage the display.
- The remote control has a built-in pointer, if the pointer isn’t visible, gently shake the remote to activate it.
- Please do not tilt the display, this could cause an imbalance in weight.
- Please contact Tony in reception if you want to move the TV.

FAQ

- For audio and video display, please use HDMI input. (HDMI connections will be on HDMI 4)
- Windows: Open up the project menu, select “connect to a wireless display”, then select the LG TV in the menu.
- To use the iMac, use HDMI 1.
- For the USB-C adapter, use HDMI 2.
- And for the mini-DisplayPort adapter, use HDMI 3.
- See below for the button on the remote to change the input:

If you want to suggest other rules, please email Tony at tonyg2@uw.edu
