

Department of Anesthesiology, Division of Critical Care Medicine

Innovative Program in Anesthesiology and Critical Care Medicine: Rotation Description

Year of Training	Rotations	Site(s)	Months
Clinical Base Year	Internal Medicine (Inc cardiology)	UWMC or HMC or VA	3
	Hospitalist/med consult	HMC	4
	General Surgery	HMC or UWMC	2
	Emergency Medicine	UWMC or HMC	1
	Medical ICU	UWMC or HMC	1
	Anesthesiology	UWMC or HMC	1
	Acute pain	HMC	1
CA 1	General OR	UWMC, HMC, VAPSHCS	6.5
	Pre-Anesthesia Clinic	UWMC & VAPSHCS	1
	SICU	VAPSHCS	1
	Neuro or Surgical Critical Care	HMC	1
	PACU	UWMC	0.5
Acute and chronic pain (may be in CA2 yr)	UWMC, HMC	2	
CA 2	Obstetric anesthesia	UWMC	2
	Pediatric anesthesia	CHRCM	3
	Cardiac anesthesia	UWMC or VAPSHCS	1
	Neuro anesthesia	UWMC or HMC	1
	Regional anesthesia	UWMC or HMC	1
	Ambulatory anesthesia	UWMC	1
	Neuro or Surgical Critical Care	HMC	1
	Med-Surg Critical Care	UWMC	1
CA 3	Cardiac anesthesia	UWMC	1
	Pediatric anesthesia	CHRCM	1
	Anesthesiology "selectives"*	Variable	7
	SICU†	VAPSHCS	2
	Neurocritical Care†	HMC	1
CA 4	Anesthesiology "selectives"*	Variable	5
	Anesthesiology elective*	Variable	1
	Trauma-Surgical Critical Care†	HMC	2
	Cardiology/CCU†	UWMC	1
	Critical care elective†‡	Variable	1
	Radiology†	HMC	1
	Medical ICU†	UWMC, HMC, SCCA	3
	Surgical ICU†	UWMC	1

* "Selectives" include specialty rotations in clinical anesthesiology; refer to <http://depts.washington.edu/anesth/training/residents/program.shtml> for a detailed description of anesthesiology selective and elective options.

† Fellowship-level rotations in Critical Care Medicine; not available in conventional 4-year program

‡ Critical care electives include research, advanced echocardiography, outside rotations arranged in advance

Innovative Program in Anesthesiology and Critical Care Medicine:
APPLICATION PROCESS

All positions for the program will be filled through the NRMP match process starting for entry in June 2009.

This will be a separate match. Applicants are also welcome to apply for the regular categorical and/or advanced anesthesia program at the same time.

Candidates will be ranked according to their abilities, interest and aptitude for ICU training.

Candidates should be aware that this is a 5 year program and once candidates have matched into the program early release from training will require an application for a waiver from the NRMP. See NRMP website for full details on waivers and releases from NRMP participating programs.
