Family Camp for Exceptional Families

October 12-14, 2018

YMCA Camp Orkila in collaboration with the UW Autism Center and the APEX Program is excited for our Family Camp for Exceptional Families - a great opportunity for families of all shapes, sizes and abilities to unwind and reconnect away from the pressures of your family's busy lives.

We will provide activities like arts and crafts, boating, archery, the giant swing, and climbing wall for families with any special needs so that everyone can enjoy an overnight camp experience together. Each family, if they'd like, will have a Camp Orkila staff person with them to provide support throughout the day.

We hope that sharing this experience with other families allows your family to have some quality family time with fun, healthy activities to please all ages in the inspiring natural beauty of Orcas Island.
