

2006-2007 Presentation, Publication and Professional Development Opportunities
 Prepared by Chris Hanssmann for the Community-Engaged Scholarship for Health Collaborative
 February 2006

The following is a list of meetings, calls for proposals, and calls for papers during 2006-2007. It is not a comprehensive list, but provides a guide to some of the discipline- and topic-specific events and publications that are taking place in the coming year of relevance to the Collaborative. We especially hope this list is useful in planning for discipline-specific presentations and publications of work related to the Collaborative.
