**Community-Based Participatory Research
in Public Health Conference**
April 17, 2003
South Campus Center, University of Washington

AGENDA & PROGRAM

- 9:15-10:00 a.m. Room 316:** Participants check in, coffee served
- 10:00-10:05 a.m. Welcome**
- ~**Sarena Seifer, MD**
Executive Director, Community-Campus Partnerships for Health
- 10:05-10:15 a.m. Introduction of Keynote Speaker**
- ~**Patricia Wahl, PhD**
Dean, University of Washington's School of Public Health and Community Medicine
- 10:15-11:30 a.m. Keynote Speaker**
- ~**Robert Goodman, PhD, MPH, MA**
Usdin Family Professor, Community Health Sciences
Tulane University School of Public Health and Tropical Medicine
- 11:30-12:45 p.m. Lunch served in Room 316**
- 12:45-2:30 p.m. Workshop Session I:** *Please select one of two choices*
- Room 316:** **Healthy Homes: CBPR in the context of a randomized controlled trial of an in-home environmental intervention to reduce asthma morbidity**
The goal of this workshop is to understand the benefits and challenges of using CBPR methods in a randomized, controlled trial. The Healthy Homes intervention, evaluation methods, and main findings will be presented. The use of CBPR methods to develop the initial NIH grant proposal, intervention protocols, evaluation protocols, and data collection tools will be described. Creating a project administrative structure for including community participation and approaches to disseminating project findings and sustaining project activities after NIH funding

ended will be discussed. Challenges and strategies in applying CBPR methods will be considered.

~James Krieger, MD, MPH
Chief of the Epidemiology, Planning & Evaluation Unit at Public Health-Seattle & King Co.

~Carol Allen
Program Manager for Seattle Healthy Homes Project and Project Coordinator for King County's Department of Public Health in the Epidemiology, Planning and Evaluation Division

~Augustine Hampton
Board Member of the Casey Foundation Committee for the New Holly Project

Rooms 242/246:
(combined)

CBPR & Domestic Violence

This session will examine the application of CBPR principles to a DV intervention evaluation project that is a collaborative partnership between Refugee Women's Alliance (ReWA), Public Health-Seattle-King County, Seattle Partners for Healthy Communities, and the Department of Health Services, University of Washington. ReWA is a non-profit, community-based, multi-ethnic organization founded in 1985 to support and empower refugee and immigrant women faced with the adjustment challenges of resettlement in the Seattle-King County area. Established by a group of successfully resettled refugee women, ReWA seeks to provide newly arrived refugee/immigrant women with services not offered by other refugee advocacy services.

~Sharyne Shiu-Thornton, PhD
Medical anthropologist and ethnic minority health specialist and lecturer in the Dept. of Health Services at the University of Washington

~Kirsten Senturia, PhD
Research Anthropologist at Public Health-Seattle & King Co. and affiliate Clinical Asst. Professor at the University of Washington in the Social and Behavioral Sciences track of the School of Public Health

~Beruke Giday, MNPL
Domestic Violence program manager with the Refugee Women's Alliance [ReWA]

2:30-3:00 p.m.

Break, coffee and refreshments served

3:00-4:45 p.m.

Workshop Session II: *Please select one of two choices*

Room 316:

CBPR & Nutrition

Goals include:

A) To describe funding available to support CBPR research in the area of physical activity, nutrition and obesity prevention.

B) To provide information about a CDC-funded project for obesity prevention in Washington State. The implementation of grant activities, including the State

Nutrition and Physical Activity Plan and a community-based project in Moses Lake, Washington will be highlighted.

C) To discuss the newly formed Center for Public Health Nutrition and the role it plays in obesity prevention efforts and CBPR.

~Adam Drewnowski, PhD

Director of the Center for Public Health Nutrition at the University of Washington and Professor of Epidemiology in the School of Public Health and Community Medicine

~Donna Johnson, RD, PhD

Associate Director at the Center for Public Health Nutrition and Asst. Professor in the Nutritional Sciences Program at the University of Washington as well as a Registered Dietitian

~Caroline McNaughton Tittel, MPH, RD

Program Manager for the Center for Public Health Nutrition at the University of Washington and a Registered Dietitian

~Mayor Lee Blackwell, MBA

City of Moses Lake, Washington

Rooms 242/246:
(combined)

CBPR and Pesticide Exposure in the Lower Yakima Valley:

The goal of this workshop is to understand how successful partnerships can be formed even when the issue is contentious and potential players are outspoken in their opposing viewpoints. In this session we will discuss some of the basic principles we use when forming a partnership with the underserved. Emphasis will be placed on ways of mobilizing a community. Lessons from the field will be presented. Two college students from the Valley will describe how their experiences with a collaborative partnership led to academic careers that focus on research.

~Beti Thompson, PhD

Full member in the Cancer Prevention Program at the Fred Hutchinson Cancer Research Center and a Professor in the Health Services Department in the School of Public Health and Community Medicine at the University of Washington

~Ruby Godina

Sophomore at the University of Washington. Ms. Godina was recruited through a minority high school program conducted by Dr. Thompson in the Yakima Valley to work on research projects related to Hispanics

~Antonia Martinez

Sophomore at the University of Washington. Coming from the Yakima Valley, she began her interest and work in research as a minority high school student as part of Dr. Thompson's projects in the Yakima Valley

4:45-5:00pm

Reflection (Room 316)

~ Robert M. Goodman, PhD, MPH, MA

CBPR conference Keynote Speaker and Usdin Family Professor, Community Health Sciences, Tulane University School of Public Health and Tropical Medicine

~Sarena D. Seifer, MD

Executive Director, Community-Campus Partnerships for Health
