# Defining community

*CCPH board of directors, 2005*

There is no “one” definition of community

- Geography
- Age
- Ethnicity
- Gender
- Sexual orientation
- Disability, illness or health condition
- Common interest or cause
- Shared values or norms

# Defining community

*CCPH board of directors, 2005*

Defining “community” in community-based research is more about the process of asking questions than about a strict definition of who “is” community or “represents” community:

- Are those most affected by the problem at the table?
- Are those who have a stake in the issue being addressed at the table?
- Do they play decision making roles?

# CCPH Principles of Partnership

- Partners have agreed upon mission, values, goals and measurable outcomes for the partnership
- The relationship between partners is characterized by mutual trust, respect, genuineness, and commitment
- The partnership builds upon identified strengths and assets, and addresses needs
- Power is balanced among partners and resources are shared

# CCPH Principles of Partnership

- There is clear, open and accessible communication between partners
- Roles, norms and processes for the partnership are established with the input and agreement of all partners
- There is feedback to, among and from all stakeholders in the partnerships
- Partners share the credit for accomplishments
- Partnerships take time to develop and evolve

# Major Strategies
