

# The CCPH Mentor Network

## A training network committed to successful community-campus partnerships

*“I really enjoyed your commitment to the participants by providing materials, soliciting feedback, sending follow-up information and offering to serve as a resource. It was not just you giving information; I felt like you were fostering a relationship with each participant.”*

*~ A training participant, 1999*

The CCPH Mentor Network is a multidisciplinary network of individuals from higher education, health professions and community-based organizations who have experience, expertise and proven records of success in important areas related to community-campus partnerships. The Network is designed to assist you, your organization, your community or your program in developing and sustaining successful community-campus partnerships. The Network works with schools, colleges, universities, community-based organizations, student organizations, government agencies and others to strengthen health-promoting community-campus partnerships.

Our mentors are skilled and actively engaged in community-campus partnership building, leadership development, faculty development, program evaluation, strategic planning and fundraising and other areas that underlie successful community-campus partnerships. They are available to give presentations, design and lead training workshops, conduct external evaluations and provide telephone or on-site technical assistance. The mentors are trained in incorporating a blend of didactic and interactive experiential learning techniques into various consultative arrangements.

### The Goals of the Mentor Network

The goals of the CCPH Mentor Network are to foster partnerships between communities and educational institutions through high-quality and effective training and consultation services. These services are intended to:

- Foster the development and sustainability of health-promoting community-campus partnerships
- Strengthen the ability of these partnerships to improve health professions education, civic responsibility and the overall health of communities
- Provide CCPH with a continuous source of information about contemporary issues facing community-campus partnerships, enabling us to be more responsive to new and emerging trends

### Types of Training and Consultation

Training and consultation provided by the CCPH Mentor Network takes many forms. For training, these include but are not limited to:

- Workshops and presentations during conferences and training institutes that are sponsored or cosponsored by CCPH

- Workshops and presentations during conferences and training institutes that are sponsored by organizations other than CCPH
- Workshops and presentations held at the Mentee location.

### Training Scenarios

The following scenarios provide a sample of training options. All training experiences are complemented by tested training tools, handouts and other resource materials. The following training options can be provided in 1-2 days.

- **Community-responsive curriculum development.** How can your curriculum be more student and community-responsive? This training would address the “process” and implications for designing a curriculum that meets both the institutions objectives for academic learning, the student’s learning and professional growth objectives, and the “service” objectives of community clinician and agency partners. Trainers can assist the faculty and their team members in designing an action plan in follow-up to the training.
- **Faculty development and leadership.** How can faculty leadership in community-based education be fostered? What are the faculty competencies for working in community-based settings? Trainers can assist faculty in discovering their leadership abilities and develop strategies for effectively “channeling” these abilities in community settings.
- **Community leaders involved in community-campus partnerships.** Would you like to learn more about working in partnership with a health professions school in your area? This training provides community clinicians and agency staff with the skills and competencies to effectively build partnerships with campus faculty and staff, and to “navigate” through the academic system. In addition, participants learn important strategies for developing a partnership agreement with other stakeholders and the “nuts and bolts” of working with students in community-based settings.
- **Student leadership and development.** How can we foster student leadership skills and abilities? This training is modeled from tested student leadership institutes held by CCPH. Student learners engage in interactive hands-on sessions focused on developing their leadership skills in the area of communication, community organizing and advocacy, partnership building, and working with the media. Students work with trainers to design an action plan for implementation following the training.
- **Service-learning in the health professions.** This training focuses on service-learning as an effective educational methodology for improving student education and community health. Trainers work with faculty and program staff to understand the theory of service-learning, effective “reflection” strategies for classroom and community-based settings, partnership building strategies, service-learning assessment, and service-learning curriculum design.

Members of the Mentor Network can design a training or consultation that reflects your desires, and builds upon your knowledge and skill base. Prior to any training or consultation, members of the Mentor Network will work with you to assess your most pressing issues based on your completion of the Network Skills and Needs Inventory Tool. Your completion of the inventory tool will also reveal the learning method(s) desired by your and/or your organization.

In addition to customized trainings, Community-Campus Partnerships for Health also sponsors regularly scheduled introductory and advanced service-learning institutes for community and campus faculty and staff. Institute information and application materials can be obtained by completing the enclosed index card, downloading the application from our website ([www.futurehealth.ucsf.edu/ccph.html](http://www.futurehealth.ucsf.edu/ccph.html)), or by contacting our fax on demand service by calling 1-888-267-9183 and selecting documenting # 206.

### **CCPH Mentor Network Fees**

CCPH Mentor Network services are usually provided on a fee-for-service basis according to a fee schedule, plus reimbursement of travel expenses where applicable. Discounts are provided to CCPH members and to programs paying for services with federal funds. As an organizational member of CCPH, you will receive a free one hour consultation on the topic of your choice.
