

CENTER FOR GLOBAL FIELD STUDY  
UNIVERSITY OF WASHINGTON  
INTERNATIONAL FIELD STUDY PROGRAM

2011  
IFSP - INDONESIA

PROGRAM DATES:  
8 JULY- 2 AUGUST 2011

**IFSP-Indonesia** is an interdisciplinary educational program established in 1995 in collaboration with the Primate Research Center at Bogor Agricultural University, Indonesia. The program is designed to provide field-based educational, training, and research opportunities for students interested in Conservation Biology, Animal Behavior, Primatology, Environmental Science, and Global Health.

The 2011 *IFSP-Indonesia* program will take place on Tinjil Island, located off the southwest coast of West Java, Indonesia. Approximately 600 ha in size, this remote island consists of lowland tropical rainforest and coastal/beach vegetation. The island is surrounded by coral reef that provides home to a variety of aquatic marine animals.

Tinjil Island was developed as a natural habitat breeding facility for free-ranging longtailed macaque (*Macaca fascicularis*) monkeys. The island's current population size is in excess of 1800 animals.

The island's native fauna includes bats, rats, a number of bird and reptile species (monitor lizards, pythons, etc.), and a wide variety of insects and crustaceans.

The *IFSP-Indonesia* provides an excellent opportunity for participants to experience first hand the demands and rewards of living and conducting research in tropical field conditions. Individuals with a sincere interest in field research and an appreciation of foreign cultures will find this program an exciting and challenging experience. To date, more than 60 students representing nine different departments have participated in this international field study program.

**IFSP-Indonesia Program Details**

**Program Dates:** 8 July – 2 August 2011

**Cost:** \$1795.00 (airfare & tuition not included)

**Eligibility:** Undergrad/Grad Students  
(at least soph. standing; min. GPA 3.0)

**Program Courses & Academic Credit:**

- 1) Psych 494a; spr qtr at UW; 3 cr  
"IFSP-Indo Seminar"
- 2) Psych 494b; sum qtr on Tinjil; 3 cr  
"Field Course in Conser. Biol. & Global Health:  
At the Human-Environment Interface"
- 3) Psych 499/600; sum qtr on Tinjil; 4 cr  
"Field Research in Indonesia"

**Application Deadline:** 25 February 2011

Tinjil Island
