Our goal is to provide patients and their families with the information and resources they need to achieve their potential. Our physicians and other providers from the University of Washington Medical Center (UWMC) are working together to bring world-class care to you and your family.

The UWMC is expanding facilities on the south side of the Medical Center through 2011. You should be aware that access routes to the CHDD may change to accommodate construction. Please allow extra time to arrive at your destination.
