ANTICIPATED COURSE FEES

	Resident and Non-Resident	Total Credits Required
Per Credit*	$608	46-49

* Per credit fee does not include one-time and quarterly UW student fees. Estimated fees for 2016-2017 are $395 per quarter, which includes the Services & Activities fee, U-Pass Fee, Technology Fee and Registration Fee.

FULL-TIME OR PART-TIME: WHICH OPTION IS BEST FOR YOU?

Full-Time	Part-Time
Full-time students complete the program in 5 quarters and usually do not work while enrolled. The workload is heavier in Year 1 and tapers off as students complete required course work and focus on the project in the fifth quarter.	Part-time students can complete the program in 2 years, with a quarterly workload of 6-8 credits. Most part-time students maintain full or part-time employment while enrolled.
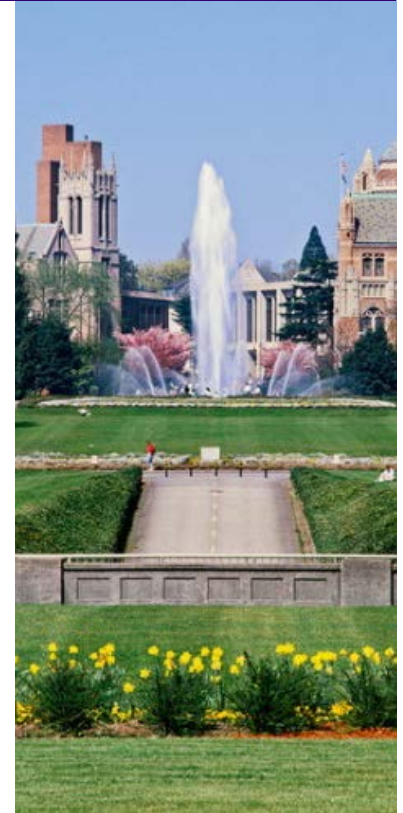

BUDGETING FOR GRADUATE SCHOOL

✓ **Textbooks and Software:** Include textbooks and the purchase of current software in your budget. Anti-virus software and Microsoft Office 365 are available at no cost to matriculated students. Student discounts are available on other programs, such as EndNote.

✓ **Additional expenses** for online programs:
- Computer
- Microphone and headset
- Web camera (optional)
- Cable/DSL internet
- Annual travel to Seattle for CIPCT Annual Meeting and Orientation

✓ **Future course fees:** Course fees are projected to increase by 6-8% annually. Add a percentage increase to your projections when planning your finances.

✓ **Financial Aid:** Students in the UW Clinical Informatics and Patient-Centered Technologies (CIPCT) Online Master of Science program are eligible for Federal Financial Aid.
