## WHO SHOULD ATTEND

This course is designed for practicing interventional radiologists who desire a comprehensive review of vascular and interventional radiology. The course is also appropriate for radiology residents, fellows, nurses, and technologists.

## COURSE DESCRIPTION

The course is designed to provide a comprehensive review of Vascular and Interventional Radiology. The program is composed of both didactic lectures and case review sessions. The course is divided into three parts: (1) Vascular Diagnosis; (2) Vascular Interventions; and (3) Non-Vascular Interventions. The presentations and course syllabus will cover pre-procedure clinical evaluation, patient selection, procedural techniques, anticipated results, and post-procedure management. The course will also feature an audience response system and interactive case review sessions that will allow course participants to review and assess their skills on illustrative cases.

## COURSE OBJECTIVES

At the conclusion of this activity, participants should be able to:

- Describe the indications and contraindications for a variety of vascular and interventional radiology (IR) procedures
- Discuss the technical aspects of all major vascular and non-vascular interventional procedures in routine clinical practice
- Handle typical and rare complications of IR procedures
- Make accurate diagnoses on non-invasive imaging and angiographic studies pertinent to IR cases

## ACCREDITATION

The University of Washington School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The University of Washington School of Medicine designates this educational activity for a maximum of 17.25 *AMA PRA Category 1 Credits*™. Physicians should only claim credit commensurate with the extent of their participation in the activity.
