

Wetlands Ecology Project Manager Lafayette, LA

I.M. Systems Group, Inc. (IMSG) www.imsig.com is soliciting a qualified Project Manager candidate to potentially lead a Government support program at the U.S. Geological Survey (USGS) National Wetland Research Center (NWRC) in Lafayette, LA along with support to other USGS facilities.

The scope of work includes:

- Act as the IMSG on-site representative, interfacing with the NWRC management and the Contract Officer Representative.
- Work with IMSG Program Director and Contracts Director (in IMSG Headquarters located in Maryland) to effectively manage the technical, cost and schedule aspects of the Contract.
- Manage and maintain a productive workforce of scientific, professional, and administration employees to meet customer requirements.
- Manage the day-to-day operations of the contract including cost and schedule commitments, administration, implementation of company policies, processes, and performance standards, tracking tasks and deliverables, monitoring budgets, and evaluating performance.
- Provide proactive leadership and direction of personnel, be able to assess the performance of subordinates, and coach them to improve performance.
- Perform business development services, identifying opportunities, assisting in market analysis, and writing proposals.
- Oversee personnel training and mentoring, and promotion to positions of increased responsibility on the team
- Coordinate tasks and review work products for completeness and adherence to customer standards

General Requirements/Preferences

- MS or above degree in wetlands ecology, biology, earth science or other related disciplines such as remote sensing, hydrology, botany, geography, etc.
- 8+ years of management experience supervising a staff of more than 20 people on projects focused on ecology or biology.
- Familiarity with the wetland ecology and biology of Coastal Louisiana.
- On-site working experience in science and management capacity at USGS NWRC is strongly preferable.
- U.S. citizenship only.
- Strong team player, focused on quality and customer satisfaction, with strong writing and oral communication skills.

To Apply

IMSG offers an outstanding overall compensation package including health/dental insurance, short term/long term disability insurance, paid-time-off, and a 401(k) plan. Interested applicants: Please submit your resume, the contact information for three (3) references, and a cover letter explaining how your qualifications meet the requirements of the position to: **jobs@img.com**, with the subject **NWRC1401 – Wetlands Ecology Program Manager**. Compensation will be negotiated based on candidate qualifications. The position is dependent on contract award to IMSG.
