

University of Oxford

Department of Earth Sciences in association with St Peter's College

Sackler-Clarendon Associate Professorship of Sedimentary Geology and Sackler Fellow in Earth Sciences

We seek to appoint an Associate Professor in Sedimentary Geology from 1 August 2014 or soon thereafter. The successful candidate will work at the Department of Earth Sciences and will hold a Tutorial Fellowship (the Sackler Fellowship in Earth Sciences) at St Peter's College. The appointment will be initially for five years at which point, upon completion of a successful review, the post holder will be eligible for reappointment to the retiring age.

We welcome applications from scientists researching sedimentary geology, petrology, and sedimentology, and from those using expertise in a broad range of related disciplines (e.g. stratigraphy, palaeontology, mineralogy, geochemistry, geomorphology, tectonics) to study sedimentary processes and deposits. The successful candidate will have a PhD in earth sciences or a related subject. The main duties of the post are to carry out research at an international level, to secure research funding, to teach, supervise and examine undergraduate and postgraduate students, and to participate in and contribute to the administration of the Department. The appointee will be an Official Fellow of St Peter's College and will have responsibility for the teaching of earth sciences within the College, including relevant administrative work and undergraduate admissions.

Further particulars, which include details of the application procedure, can be obtained from the Department web site (<http://www.earth.ox.ac.uk/vacancies>) or from Emma Hickman (emmah@earth.ox.ac.uk). Academic enquiries should be addressed to Gideon Henderson (gideonh@earth.ox.ac.uk).

Salary on a combined College and University scale within the range **£43,745 - £58,739 p.a.**, plus £7,320 p.a. taxable and pensionable College housing allowance and other benefits

The closing date for applications is **15th April 2014**.

Applications are particularly welcome from women and black and minority ethnic candidates, who are under-represented in academic posts in Oxford. The University is an Equal Opportunities Employer.
