

## ***Graduate Research Assistantships in Environmental Toxicology***

**Agency:** Center for Fisheries, Aquaculture and Aquatic Sciences, Department of Zoology at Southern Illinois University

**Location:** Carbondale, IL

**Job Description:** Seeking two motivated graduate students to join an active environmental toxicology group. Potential research topics include: joint toxicity of multiple stressors; fate and effects of pesticides (including Bt and neonicotinoids) in various systems; development of resistance in non-target species; and sublethal impacts of pesticides on bee health.

**Qualifications:** Undergraduate degree in Zoology, Entomology, Chemistry, Toxicology or related field. Desired qualifications include experience with toxicological bioassays, culturing of aquatic organisms, western blotting, immunoassays and/or analytical equipment (GC/HPLC). Good writing skills required.

**Salary:** Research assistantships will include a competitive salary, full tuition waiver, health benefits and support for the proposed research.

**Last Date to apply:** April 25, 2014. Starting dates are Summer through Fall 2014.

**Contact:** Send letter of intent describing research interest and goals, a resume, transcripts and three letters of reference to: Dr. Michael Lydy, Fisheries and Illinois Aquaculture Center, Southern Illinois University, Carbondale, IL 62901, (618) 453-4091 [mlydy@siu.edu](mailto:mlydy@siu.edu) See <http://www.aquatictox.com/> for further details.
