

MS Graduate Research Assistantship: Insect Diversity

The Hardy Lab at Auburn University is seeking a M.S. student. The lab's research is geared towards documenting the taxonomic and ecological diversity of plant-feeding insects, and understanding the evolutionary factors that have generated that diversity. The student will receive training in entomology, systematics, comparative phylogenetics and bioinformatics, and will conduct research relating to the lab's research themes. More information can be found at <http://hardylab.skullisland.info>.

This position has two years of full support – stipend, tuition, research – through the Auburn Department of Entomology and Plant Pathology.

To apply, please send a CV and a short (< 250 words) statement of research interests to Nate Hardy (n8@auburn.edu). Applicants must meet requirements of admission to the Auburn Graduate School (<http://www.grad.auburn.edu/>). Review of applications will begin immediately and continue until the candidate is selected. There is some flexibility with the start date: either fall of 2014, or spring of 2015.

Looking forward to hear from you!

Nate Hardy
