

North Dakota State University is seeking applicants for an Assistant Professor / Range Scientist in the School of Natural Resource Sciences. Job responsibilities for the Range Scientist include developing a regionally and nationally recognized research program in rangeland ecology, restoration ecology, ecosystem management and habitat management; and collaboratively acquire extramural funding to support the research program; and teach one undergraduate course in sampling techniques and develop one graduate level research design course in range/natural resource management. For a full listing of the responsibilities and qualifications, and to apply, visit <http://jobs.ndsu.edu/postings/4731>. Screening of applications will begin on July 15, 2014, but applications will continue to be accepted until an adequate pool is established. NDSU is an AA/EEO employer. Women and traditionally underrepresented groups are encouraged to apply.
