

Resource Environmental Solutions, LLC, a stream and wetland mitigation banking company, has an immediate job opening for an Aquatic Restoration Foreman/Operator.

Position: Foreman/Operator
Location: Canonsburg, PA
Job Type: Hourly
Start Date: Immediate
Reports to: Northeast Operations Manager

Description: Candidates for this position will be responsible for equipment operation and field crew management during project construction and maintenance.

Requirements:

- Three to five years experience working on construction, landscaping, or ecological restoration projects, as well as the ability to operate all basic landscaping equipment.
- A valid CDL.
- Experience with larger construction equipment including backhoe's, track-hoes, and bulldozers, along with work on large construction projects is preferential.

To Apply: Please send cover letter and resume to Kristine Swann at kswann@res.us.

Application Deadline: July 15th, 2014

Applications will be reviewed upon receipt.
