

Air Quality Professional

Kleinfelder - Denver, CO

<http://jobview.monster.com/Air-Quality-Professional-Job-Denver-CO-US-140973184.aspx>

Kleinfelder is an employee-owned architectural, engineering, and science consulting firm providing solutions to meet our world's complex infrastructure and natural resource challenges.

Kleinfelder has nearly 2,000 employee-owners with offices nationwide and abroad. With over 50 years of experience, Kleinfelder's reputation for providing innovative, commonsense solutions to the most complex challenges has solidified its status as a trusted partner to its global clients and a leader in the industry. Working as a team, Kleinfelder's bright people will deliver the right solutions.

Kleinfelder is seeking an Entry Level Air Quality Permitting Professional to be located in the Denver Office to assist in air quality regulatory compliance. The primary role of this position is to provide engineering technical support for various aspects of air quality compliance programs including preparation of emission inventories, database development, ambient impact modeling, permit application preparation, regulatory review, recordkeeping and reporting, equipment inventories and process assessments. This position is highly technical requiring excellent data management and interpretation skills, strategic thinking to identify and apply logical solutions, ability to understand and apply engineering calculations and quality control procedures, good writing and organization capabilities, ability to work independently or as part of a larger group with capacity to support multiple assignments. A key focus of this position is to obtain air permits and ensure compliance with environmental requirements associated with the oil and gas industry. The position may also include responsibilities for supporting field work that can include data acquisition and analysis, equipment inventories, and other compliance efforts requiring facility visits.

Experience:

Technical accuracy, the ability to work efficiently and effectively, and have excellent communications skills is necessary

Must have strong computer skills including a strong working knowledge of Microsoft Office Word and Excel

Experience performing duties or research directly related to the application of air quality science, and knowledge of oil & gas operations is a plus

Education:

BS in environmental engineering and/or compliance, physics, chemical engineering, mechanical engineering, atmospheric science, environmental science or related field with an emphasis in environmental compliance, or an equivalent combination of experience and education.

Kleinfelder offers an excellent compensation and benefits package, including: medical, dental, vision, life insurance, 401(k) plan, and paid holidays.

Kleinfelder is an Equal Opportunity Employer – Minorities/Women/Disabled/Veterans.
