

Miami University. Assistant Professor position in Water Resources.

Assistant Professor in Geography; a physical geographer with research and teaching expertise in surface water resources, especially relating to climate, hydrology, and/or watershed science. Qualified applicants will have a PhD in Geography or closely-allied field by time of appointment. Candidate must be qualified to teach a broad range of physical geography and water resource courses, advise undergraduate and graduate students, contribute to interdisciplinary grant-funded research projects and provide service to the university. We emphasize contributions to existing strengths in human-environment relationships, urban sustainability, and global development and change.

Submit letter of application, vita, list of three references, evidence of teaching effectiveness to www.miamiujobs.com/applicants/Central?quickFind=53962. Contact phone number is 513-529-5010. Applicants should contact John Maingi, Search Committee Chair with questions at maingijk@miamioh.edu. For more information about the department consult the web site at www.miamioh.edu/geography. Screening of applications begins October 22 and continues until the position is filled. Miami University, an equal opportunity/affirmative action employer with smoke- and tobacco-free campuses, is committed to a multicultural environment and strongly encourages applications from minorities, females, veterans and individuals with disabilities. Miami's Annual Security and Fire Safety Report with information on campus crime, fires, and safety may be found at: <http://www.MiamiOH.edu/campus-safety/annual-report/index.html>. Hard copy available upon request. Employment will require a criminal background check according to University guidelines.
