

The Department of Biology and Marine Biology at the University of North Carolina Wilmington invites applications for three tenure-track positions at the rank of Assistant Professor starting August, 2015. Successful candidates for all three positions will be expected to contribute to undergraduate and graduate teaching and student mentorship, as well as maintain a vigorous, extramurally funded research program. The department offers degrees in Biology (B.A., B.S., M.S.) and Marine Biology (B.S., M.S., Ph.D.). Preference will be given to candidates best able to complement existing disciplinary strengths and leverage departmental facilities (<http://www.uncw.edu/bio/>). Additional excellent support for research is provided on campus and at the CREST Research Park (<http://uncw.edu/CREST/>), including the Center for Marine Science, Shellfish Research Hatchery, and Biotechnology Center.

Vertebrate Biologist – Candidates in any area of vertebrate biology are welcome to apply, especially those able to develop research in local habitats. Teaching area is open, but may include introductory biodiversity, comparative vertebrate anatomy, evolution, mammalogy, and vertebrate natural history.

Neurobiologist/Cell Biologist – Candidates with interests in any area of neurobiology and sensory biology are welcome to apply. Teaching cell biology and neurobiology, as well as participation in the interdisciplinary neuroscience minor, is expected.

Coastal/Marine Plant Biologist – Candidates with research interests in plant metabolism, and able to develop research in local coastal or marine habitats are encouraged to apply. Teaching in plant physiology and plant biology is expected.

Candidates must have PhD, post-doctoral research experience, and demonstrated potential for excellence in research and teaching. For more information on the department, please visit <http://uncw.edu/bio/>. For more information about, or to apply for, these positions, please visit <http://www.uncw.edu/hr/employment-epa.html>. Priority consideration will be given to applications submitted before November 5 2014.

UNCW actively fosters a diverse and inclusive working and learning environment. Qualified men and women from all racial, ethnic, or other minority groups are strongly encouraged to apply. UNCW is an equal opportunity employer.
