

The Department of Earth, Environmental, and Geographical Sciences at Northern Michigan University invites applications for a tenure-track Assistant Professor of Physical Geography to begin in August, 2015. The successful candidate will be able to teach courses such as Physical Geography, Soils, Introduction to Maps, Introduction to Geographic Research, and Human Impact on the Environment; and other courses that complement the Department's curriculum.

Required minimum qualifications: Ph.D. (granted by August, 2015) with academic training in Geography or a closely related field; and an active scholarly agenda focused on the physical environment. Scholarship related to human impact on the physical environment is desirable.

Additional desirable qualifications: Demonstrated strong commitment and ability to provide excellent undergraduate instruction and advising; and university teaching experience. For a complete listing of the requirements, knowledge, skills and abilities for this position, please visit <https://EmployMe.nmu.edu>.

Northern Michigan University, with 8,600 students and 180 degree programs, is located along the shore of Lake Superior in the vibrant, historic city of Marquette, consistently named a top spot in the nation to raise a family, vacation, and enjoy an excellent quality of life. See more at [www.nmu.edu/marquette](http://www.nmu.edu/marquette).

Applicants should submit a letter detailing evidence of teaching effectiveness, professional accomplishments and scholarship, a curriculum vita, unofficial academic transcripts, and contact information (including e-mail address and phone number) for three references to <https://EmployMe.nmu.edu>. The position will be posted until November 1, 2014.

NMU is an equal opportunity, affirmative action employer of protected veterans and individuals with disabilities, and is strongly committed to increasing the diversity of its faculty.
