

The Central Arizona–Phoenix Long-Term Ecological Research (CAP LTER) program in the Julie Ann Wrigley Global Institute of Sustainability at Arizona State University (ASU) invites applications for a part-time, benefits eligible, (20 hours/week) entomological research specialist position. The entomologist will work closely with CAP LTER staff and project investigators to support long-term monitoring and research studies of arthropods.

Minimum qualifications: Bachelor's degree in a field appropriate to the area of assignment AND two years related research experience; OR, six years research experience appropriate to the area of assignment; OR, any equivalent combination of experience and/or education from which comparable knowledge, skills and abilities have been achieved.

Desired qualifications: evidence of a B.S. or M.Sc. in entomology or a related field; experience identifying arthropods to a fine taxonomic resolution for at least two years; experience in supervising student employees; experience with databases, biocollections data (e.g., DarwinCore); experience with macro-photography.
