

The University of Kansas College of Liberal Arts and Sciences announces the availability of a postdoctoral teaching fellowship as part of the Course Transformation Initiative in the Natural Sciences & Mathematics and Social & Behavioral Sciences. This postdoctoral program is ideal for those planning to teach at a four-year college or master's degree granting institution; appointments are for two academic years (i.e., nine-month, academic-year appointment, plus two months of summer salary). Postdoctoral teaching fellows will work closely with faculty appointed in the Departments of Ecology and Evolutionary Biology and Molecular Biosciences. Eligibility is limited to applicants who have received their Ph.D. For more information and to apply go to <https://employment.ku.edu/academic/1804BR>. Upload the following documents: letter of application, CV, a list of three references with contact information, and a teaching statement that summarizes the candidate's teaching experience, innovations in enhancing student learning, and philosophy for improving student engagement and learning in large courses.

Initial review of applications began October 20, 2014 but will remain open for a few more weeks. KU is an EO/AAE. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex (including pregnancy), age, national origin, disability, genetic information or protected Veteran status.
