

Two full-time paid internships available at:

Diversified Waterscapes Inc

Santa Ana, CA

Description

Aquatic Service Technician 6am - 2:30pm (Southern California) (California)

compensation: \$14 = \$18

SUMMARY

Since 1973 Diversified Waterscapes Inc has been a leader in providing aquatic water products and management services for lakes, streams, ponds and other aquatic features for homeowners associations, golf courses, cities and corporate entities. This position involves working in and around bodies of water. We skim debris from the water surface, turn off and pull pumps for repair and cleaning, treat water with our aquatic treatment products and perform additional tasks, such as fish stocking, lake mapping, depth analysis and muck removal. The employees of DWI take pride in contributing to the success of the company. Visit our website at www.dwiwater.com to find out more about us!
