

Aquatic Environmental Services Inc.

FISHERIES BIOLOGIST POSITION

Aquatic Environmental Services, Inc. has provided lake and fishery management since 1996 and has grown into one of the premiere fishery service companies in the Southeast conducting over 100 electrofishing surveys annually. In 2013 lake management portion of this business was sold, in order to focus solely on fishery and lake construction services. We work throughout the country but mainly concentrated in the Southeast with a strong focus on Middle and North Georgia. We desire to fill a position for a full time salaried employee to expand our growing business with an additional fisheries biologist.

Duties include:

- Execute Electrofishing surveys
- Electrofishing report preparation and client follow ups
- Administrative Duties to include: management of fertilization routes, answering client calls and emails, proposal submission
- Assistance with social media, newsletter, blog and other marketing efforts
- Conduct fish stocking as needed
- Conduct water quality sampling
- Consulting services including bathymetric mapping

Requirements:

We require a Bachelor of Science or higher degree in Fishery Science. Qualified candidates for the position of Fisheries Biologist should have a minimum of 2 years and preferred 5 years of direct experience working with fish or have preformed fishery services that required significant amounts of time working outside directly with customers.

Additional Qualifications:

He/she must be first and foremost focused on the needs of customers. They must be well organized and have good communication skills both written and spoken. Candidate must lead by example and assist in the development of long-term profitable business relationships with clients. Candidate must work well both as a team player but self motivated for working independently. They can expect to work in a variety of outdoor environments and seasonally long hours. Travel in this position is required but rarely more than 2-3 days.

Compensation

There is an excellent compensation package with rapid achievement awarded within the company for excellent job performance. Benefits include stipend for health insurance and cell phone, per diem for travel as well as paid Vacation, Holiday and Sick Leave, and a company matched Simple IRA plan.

Interested candidates should submit their resume and letter of interest to info@lakework.com with a subject line "RE: Fish Biologist Position".
