

## MARINE WILDLIFE REPORT WRITER

Closing Date: 28/11/2014

Duration: Permanent (UK Based in Great Yarmouth)

Hours: Full Time

As a Marine Wildlife Report Writer you will be responsible for the analysis, interpretation and presentation of marine wildlife data in reports to our clients. You will be one of the team responsible for the collation and interpretation of data relating to marine wildlife collected in the field by Marine Mammal Observers, Passive Acoustic Monitoring System Operatives and Seabird Surveyors

You will work closely with Project Managers and consultancy teams to ensure the production and delivery of quality controlled, accurate reports, to agreed client specifications, often within tight timescales. You will need to communicate and collaborate with a broad range of stakeholders across the Gardline group of companies.

The successful candidate should be of environmental degree calibre, and demonstrate a sound knowledge of the marine environment with both a scientific and commercial awareness. You will possess excellent communication and interpersonal skills in order to gain and process complex information, present that information clearly and concisely and think logically, critically and decisively. Excellent scientific writing skills and attention to detail are essential.

The ideal candidate must be confident using Microsoft Office applications, particularly Excel and Word. It would also be beneficial if you have experience of using and understanding Adobe Acrobat, ArcGIS and statistical software packages.

There will also be the opportunity to participate in occasional field surveys, up to 60 days offshore per annum.

**If you believe you have the experience, skills and ambition for this role, please e-mail your CV and covering letter to [recruitment@gardline.com](mailto:recruitment@gardline.com) Quoting 2014-47**
