

Faculty Position in the
Department of Chemical and Environmental Engineering
University of California, Riverside

The Department of Chemical and Environmental Engineering at the University of California at Riverside invites applications for a tenure-track or tenured position in the field of environmental atmospheric science/engineering. **Exceptional candidates in all areas of, chemical and environmental engineering will be considered, with preference given to those with interdisciplinary expertise in:** atmospheric regional air quality (focused on the transport and fate of pollutants), atmospheric Particulate Mass or gas-phase mechanistic modeling and climate forcing (e.g., Green House Gases, Black Carbon) analysis, ambient studies and or research instrumentation development in the areas of air quality, climate, and health interactions. Applicants should have a distinguished academic record, an exceptional potential to conduct world-class research, and a strong commitment to teaching chemical and environmental engineering and materials science and engineering classes at both the undergraduate and graduate levels. A doctoral degree in engineering or a related field is required by the start of service. Details for the submission of the application materials are available at www.engr.ucr.edu/facultysearch/. Full consideration will be given to applications received by November 28, 2014. EEO/AA/Disability/Vets Employer.
