

The Biology Program in the School of Sciences at the University of Louisiana at Monroe invites applications for a tenure-track Assistant Professor position beginning Fall 2015. The successful applicant must have a Ph.D., a commitment to teaching excellence, and demonstrated potential for development of an externally funded program that will involve undergraduate and M.S. students in evolutionary biology research with a molecular or population focus. Specific areas of research interest may include (but are not limited to) evolutionary developmental biology, molecular evolution, population genetics, evolutionary genomics, or other areas that integrate computational and quantitative methods in the study of evolution. Teaching responsibilities will include introductory sequences in biology, evolution, and genetics. Other courses in the area of expertise could be offered for undergraduate upperclassmen and graduate students in Biology. Submit a curriculum vitae, a statement describing teaching and research interests, a brief list of research equipment/space needs, citations of up to 3 recent publications, transcripts, and the names/contact information for three references to Dr. Joydeep Bhattacharjee (joydeep@ulm.edu), Chair, Evolutionary Biologist Search Committee, Biology Program, School of Sciences, University of Louisiana at Monroe, 700 University Avenue, Monroe LA 71209. Electronic submissions are encouraged. Review of applications will begin immediately. To receive full consideration, completed application should be submitted by November 21, 2014. For additional information see our website at www.ulm.edu/biology. ULM is an affirmative Action/Equal Opportunity Employer.
