

Director of the McDowell Sonoran Field Institute
Location: Scottsdale, Arizona

The MSFI is the ecological, historical, and geological research center of the McDowell Sonoran Conservancy (MSC), a non-profit organization dedicated to the long-term sustainability of Scottsdale's McDowell Sonoran Preserve (MSP). We are seeking a visionary director to build upon a dynamic and quickly growing applied research and citizen science program in the MSP, the nation's largest urban preserve. The ideal person would have at least 10 years senior level management experience in a scientific or conservation-focused setting, an advanced degree in science or natural resource management, and an ability to work with a variety of people including scientists, volunteers, donors, and politicians.
