

NAMIBIAN DOLPHIN **PROJECT RESEARCH** **INTERNSHIP**

Contact email: nam.dolphin.edu@gmail.com www.namibiandolphinproject.com www.seasearch.co.za

The Namibian Dolphin Project research internship is a once in a lifetime opportunity for students and enthusiasts to join dedicated scientists who are conducting marine research in a challenging, beautiful and remote environment.

As part of this program, interns are extremely important members of a focused and dedicated research team and will be immersed in pioneering research. This is an opportunity to contribute meaningfully to exciting marine research, as well as experience the frustrations, the highs, lows and achievements associated with ambitious marine research in Africa.

Interns will be directly involved in the collection of photo identification, behavioural and acoustic data in the field, and will gain skills in photograph grading, data input, processing and analysis. Interns would also be expected to attend any strandings that may occur.

Cost: USD 2100 per month. Operation times and number of interns accepted per month for 2015:

Month	March	April	May	June	July	Aug
Interns	5	5	5	5	5	5

Prospective interns should send a letter of motivation and their CV in order to apply to the program. We look forward to hearing from you and welcoming you to The Namibian Dolphin Project.
