

Position Opening for Ecologist

Corblu Ecology Group, LLC is seeking to hire qualified B.S. or M.S. graduates with strong capabilities in aquatic ecology and native fisheries, or terrestrial ecology. Positions are available in Corblu's Woodstock and/or Lawrenceville, Georgia, and Birmingham, Alabama offices. These positions are full-time, permanent, entry to mid-level opportunities. Successful applicants must have a minimum of 2 years of previous private consulting experience.

Typical job duties will include, but are not limited to, aquatic sampling for fish and benthic macroinvertebrates, field surveys for protected species (aquatic and terrestrial), water quality sampling, habitat mapping, field delineation of streams and wetlands, floral and faunal surveys, and proposal and report preparation. Occasional travel is expected and candidates should be accustomed to working outdoors under a variety of field conditions. Additional experience working on Section 404 permitting and/or compensatory mitigation projects preferred.

Applicants should have a desire to work in private consulting and possess strong skills in the following areas: 1) verbal and written communications; 2) technical writing; 3) native fish identification and/or floral identification; and 4) design and execution of field sampling protocols. High-achieving individuals will have excellent opportunities for advancement.

Corblu Ecology Group offers competitive salaries and benefits (including medical, dental, vision, 401k, vacation, holidays, and sick leave), challenging projects, and opportunities for growth in a team-orientated environment.

Qualified applicants please send cover letter and resume to:
