

MS/PhD opportunity in applied climatology at the University of Nevada, Reno

The Applied Climatology Group in the Dept. of Geography at the University of Nevada, Reno is looking for graduate students interested in studying change and variability in the climate of Alaska and northwestern Canada and their impacts on ecological and social systems.

Our group works on projects with a strong applied focus, and we place a priority on effective science communication. If you want more information on some of the current research, visit <http://www.mcafeeclimlab.com/>. Interested? Contact Dr. Steph McAfee ([smcafee@unr.edu](mailto:smcafee@unr.edu)) with a description of your research interests and skills.

The department website (<http://www.unr.edu/geography>) has information on the graduate program, as well as information about applying. The deadline to apply for graduate admission is February 1.
