

Aquatic Environmental Services Inc.

FISHERIES TECHNICIAN POSITION

Aquatic Environmental Services, Inc. has provided lake and fishery management since 1996 and has grown into one of the premiere fishery management companies in the Southeast conducting over 100 electrofishing surveys annually. In 2013 lake management portion of this business was sold, in order to focus solely on fishery and lake construction services. We work throughout the country but mainly concentrated in the Southeast with a strong focus on Middle and North Georgia. We desire to fill a position for a full time salary employee to expand our growing business with an additional fisheries biologist.

Duties Include

- Assist and perform live fish deliveries
- Assist with electro-fishing surveys
- Knowledgeable about fish species and fisheries management
- Knowledgeable about fishing for different species to help customers be more successful and improve their fishing success
- Maintain grow out pond and holding tanks
- Conduct and assist with monthly lake inspections
- Able to identify problems at lakes and put a plan of attack into action
- Fertilizer application
- Fish feeder maintenance
- Maintenance of equipment, sprayers, boats, machinery, and truck fleet
- Complete projects in timely manner
- Knowledgeable on all products and services being offered
- Be a team player

Requirements

We require a Bachelor of Science degree in Fishery Science. Qualified candidates for the position of Fisheries Technician should have a minimum of 2 years and preferred 5 years of direct experience working with fish or have preformed fishery services that required significant amounts of time working outside directly with customers.

Additional Qualifications

He/she must be first and foremost focused on the needs of customers. They must be well organized and have good communication skills both written and spoken. Candidate must lead by example and assist in the development of long-term profitable business relationships with clients. Candidate must work well both as a team player but self motivated for working independently. They can expect to work in a variety of outdoor environments and seasonally long hours. Travel in this position is required but rarely more than 2-3 days/week.

Compensation

There is an excellent compensation package with rapid achievement awarded within the company for excellent job performance. Benefits include stipend for health insurance and cell phone, per diem for travel as well as paid Vacation, Holiday and Sick Leave, and a company matched Simple IRA plan.

Interested candidates should submit their resume and letter of interest to info@lakework.com with a subject line "RE: Fishery Technician Position".
