

Ph.D. Graduate Research Assistantship in Sustainability

A PhD-level graduate assistantship is available in the Golisano Institute of Sustainability<<http://www.rit.edu/gis/>> at the Rochester Institute of Technology for participation in an NSF-funded project "Direct and Embodied Ecological Impacts across the Fullerene Life Cycle". The assistantship includes a tuition waiver and stipend, with an August 2015 start date. The selected student will work with a multidisciplinary team of ecologists and engineers to evaluate the impact of engineered nanomaterials on aquatic organisms and ecosystem functions, and will be co-advised by Dr. Callie Babbitt and Dr. Christy Tyler. Students will be enrolled in the PhD Program in Sustainability<<http://www.rit.edu/gis/academics/ph.d-sustainability/>>.

Successful candidates will have a strong background in ecology, biology, and chemistry; preference will be given to students with some experience in engineering or industrial ecology and prior research experience.

Interested applicants should send (1) a cover letter describing background, qualifications and interests, (2) a cv or resume, and (3) copies of transcripts (unofficial is acceptable) to me at actsbi@rit.edu as soon as possible. Suitable candidates will be encouraged to submit a formal application to the University.

Please contact me at actsbi@rit.edu with any questions.
