

Position – Short Term Position at Northwest Fisheries Science Center

Looking to fill a 3-month position at NOAA, starting very soon.

What: Short term (3 months, April-June 2015) contracting job at NWFSC

Qualifications: MSc or PhD, based in Seattle, US citizen, familiarity with R a must

Job description: We're looking for someone to help with salmon movement modeling and predator bioenergetics for a larger ecosystem modeling effort of the NE Pacific. The position will include some of the following: data entry from existing literature, statistical model fitting to reconstruct spatiotemporal distributions of Chinook salmon, and simulating predation impacts on salmon.

Contact: email **Isaac Kaplan** (isaac.kaplan@noaa.gov) or **Eric Ward** (eric.ward@noaa.gov) for details if interested
