

Position – Graduate Position in Watershed Sciences - Louisiana State University, School of Renewable Natural Resources (Baton Rouge, LA)

Looking for a highly motivated graduate student at the MS level (possibility exists to continue on a PhD degree later) to participate in a research on sediment transport and sedimentation in the Mississippi-Atchafalaya River Delta.

Potential applicants should have a BS in earth science, hydrology, water resources, or a closely related field. Experience in riverine study, modeling, and GIS/Remote Sensing are desirable.

The position includes a competitive stipend (\$25,000/year) for a period of 3 years.

Interested candidates should send an email describing their past experience and their motivation for pursuing a graduate degree, along with a resume, unofficial college transcripts, GRE scores, and the names and contact information for 3 references to yjxu@lsu.edu. Missing any of the above documents will not be considered. **Review of applications will begin immediately and continue until the position is filled.** Start date is expected to be in the summer semester of 2015.
