

UWare PROJECT

Spring Computing Support Meeting
May 1, 2007

We are up and running: www.washington.edu/uware

uware

2

Progress to date

- ♣ Loaded initial software
 - Fee Based: S-Plus, SAS
 - 40 downloads to date
 - (200% increase from March to April)
 - Free: UWare, McAfee Virus Scan
 - 376 downloads to date

uware

3

Billing

♣ Accepts either:

- UW Procard, or
- a single budget number

Security

- Software images are kept on local UW server in encrypted form/wrapped.
- User is sent an email key to unwrap and install software.

Next Steps

♣ Add additional titles from the Microsoft library:

- Microsoft Vista Enterprise
- Microsoft Office Enterprise 2007
- Project
- Visio
- SQL CAL

Work in Progress

- Working on getting various Adobe titles available. New Adobe contract expected to be in place 7/1/07
- Endnote: Closing in on offering a volume license to campus

Distributing Software: The next goal

- Distributing software identified as ongoing problem by many departmental site license administrators.
- Common theme – “We can continue to fund license, but can’t spare staff to distribute software.”
- UWare can help with distribution to campus by posting software for download.
- Contact us to get your software posted.
