http://julius.csscr.washington.edu/

The Center for Social Science Computation and Research (CSSCR) is an interdepartmental computer center in the College of Arts and Sciences at the University of Washington. CSSCR provides facilities and consulting support for computing activity related to teaching and research at the University. This newsletter is published quarterly, and if you have items you would like included, please contact Fred Nick at 543-8110, or fred@u.washington.edu. Thank you for reading this little tiny print. Some images copyright www.clipart.com. Go look at this splendiferous website!

FROM THE DIRECTOR
Well here we are at the beginning of another year and CSSCR is ready! We have updated, installed and hired and are seeing a very busy quarter in front of us. Have a great quarter.

-- Fred Nick

CSSCR Classes Autumn 2011

CSSCR offers free, non-credit classes to UW faculty, students and staff. Computer classes are also offered by University Computing Services (543-5970), UW Extension (543-2300) and the College of Engineering Continuing Education (543-5539). To sign up for CSSCR classes, call 543-8110, or stop by 110 Savery during office hours, or use our Web page.  http://julius.csscr.washington.edu/

Introduction to R(rrrr)
We will briefly cover some basics statistical analysis using R including linear, generalized linear models and some nonlinear regression models. Getting familiar with some generic functions is the main focus of this class.
Instructor: Stephanie Lee
Date: Tuesday, October 11
Time: NOON to 1:00PM
Place: Savery 121

Dissertation Publishing Tricks
This lecture will help you format your thesis/dissertation to conform with the UW Graduate School Style and Policy Guidelines for Theses and Dissertations.
Instructor: Dixielynn Gleason
Date: Wednesday, October 12
Time: 9:30AM to 10:30AM
Place: Savery 121

ArcGIS
Where did that red exclamation point come from?
This course is designed with the beginning ArcGIS user in mind. Using ArcGIS 9.3, we'll review concepts related to file structure, data collection, cartographic projection, and making a very simple map. Come with questions you'd like to see addressed!
Instructor: Joe Eckert
Date: Tuesday, November 1
Time: 1:00PM to 2:00PM
Place: Savery 117

Atlas.ti 6: Basic Functions & Google Earth
This course covers the basic terms and function of Atlas.ti, the qualitative research software. Students will be given a hands-on demonstration of the latest version, 6.2, and a primer on using Google Earth as a primary source within a project. No previous Atlas.ti knowledge necessary.
Instructor: Allie Stanko
Date: Tuesday, November 1
Time: 3:30PM to 4:30PM
Place: Savery 121

Working with 5-year American Community Survey Estimates
Started in the Fall of 2010, the five-year American Community Survey (ACS) estimates, including data down to the census tract and block group level, will be released every year from the Census Bureau. In this class, we will use 2005-2009 five-year ACS estimates to demonstrate the tools of extracting, analyzing and mapping the ACS five-year data.
Instructor: Tina Tian
Date: Tuesday, November 1
Time: 2:30PM to 3:30PM
Place: Savery 121

Powerpoint
This lecture is for beginning users who are aiming to create their first presentation. We will focus on different design features which can be used to display information and personalize the final product.
Instructor: Tabitha Hart
Date: Wednesday, November 2
Time: 4:00PM to 5:00PM
Place: Savery 121

Stata
This introductory Stata class covers:
1) The working environment & structure of Stata;
2) Basics of data management;
3) Simple examples of statistical analysis in Stata.
Instructor: Kristan Seibel
Date: Tuesday, November 8
Time: 1:00PM to 2:00PM
Place: Savery 121
**Introduction to TAMS Analyzer**

TAMS Analyzer is a free, open source qualitative data analysis tool for Mac users. TAMS is an acronym for Text Analysis Markup System. In this class you will learn how to get started with basic qualitative coding using TAMS Analyzer. We'll cover how to start a new project in TAMS; how to use TAMS for coding; how to rename, change, and merge codes; and how to generate simple reports on the coding that you've done. No previous experience is needed to participate in this class.

**Instructor:** Tabitha Hart  
**Date:** Wednesday, November 9  
**Time:** 4:00PM to 5:00PM  
**Place:** Savery 121

---

**SPSS**

This course will cover the basics of the SPSS package. This is an ideal course for students with no experience with this software. We will cover the structure of SPSS and how to input, manipulate, analyze and show statistical data.

**Instructor:** Eric Hamilton  
**Date:** Thursday, December 15  
**Time:** 9:00AM to 10:00AM  
**Place:** Savery 117
