Consultants

David Brockington, Political Science
Jeanette Burkett, Communications
Yi-Chi Chen, Economics
Kyongwook Choi, Pinch-Hitter
Bob Colleran, Jackson School
Theresa Fan, Social Work
Sara Kim, Education
Katherine McDermott, Public Affairs
Emory Morrison, Sociology
Deron Ferguson, Geography

Administrative Staff

Fred Nick, Director
Louise Edmunds, Fiscal Specialist
Ning Gu, Archivist
Edmond Sokul, Office Assistant
Jaechul Chang, LAN Manager
Dixielynn Gleason, Word Processing Consultant

From the Director

Welcome to Spring Quarter! This past Winter quarter was the busiest in our history. We also anticipate a very heavy Spring quarter. Traditionally, Spring is the busiest season for our Electronic Data Archive. The Archive continues to grow and change rapidly. Because the College of Arts and Sciences has helped us replace our aging, Y2K-noncompliant Unix machine with a more modern NT server (Thank you, Deans Hodge and Bernstein!), we will be redesigning and moving the archive to this new machine. We will improve access to the data and hope to provide entry right to the office desktops of our most active users.

This Newsletter is therefore an Archive Special. We are sending unsolicited copies to many faculty and administrators. We are asking for your input on ways we can improve the Archive. We have listed the titles of our present collection in this issue to make sure that the faculty at the UW who might use the data are familiar

Y2K NONCOMPLIANT DATA ARCHIVE

with its components. It is frustrating that we had 45 gigabytes of data from the CSSCR Data Archive on our Web Page two years before the UW even had a Web Page, yet many people still do not know of our 26-year-old Archive!

Included in this Newsletter is a small questionnaire about the Archive that we would appreciate if you would fill out and return to us. Thanks!

We are also pleased to announce that the Student TechFee Committee has awarded us another \$114,000 grant. We will be installing the new computers as soon as we can make all the arrangements and purchases. Thank you, Student TechFee Committee!

We are replacing our existing printers this quarter with faster, more dependable printers and putting a charging mechanism in place. The print costs last quarter were four times larger than usual. We hope to duplicate the Husky Card readers that the U-Wired sites have implemented. This will allow us to offer color printing for the first time. We will be charging for all printing at CSSCR after these readers are in place. The last thing we want to do is increase the costs of being a student here at the UW, but we have no choice. Once the central sites started charging we had a dramatic increase in people who just dropped in to get a free copy of their file printed.

As always, let me know if we can help you in your classes and your research!

Fred Nick

CSSCR's Spring 1999 Classes

Here are the ways you can sign up for classes: Call 543-8110; stop by 145 Savery during office hours; send e-mail to ascocarp@u.washington.edu, including the class you wish to take, your name and department; **or** sign yourself up on CSSCR's Web page. WWW: <http://augustus.csscr.washington.edu/>

Beginning Stata

Instructor: Kyongwook Choi
Date: Monday, April 12
Lecture: 1:00PM to 2:30PM
Place: Savery 149

Introduction to Excel

Instructor: Theresa Fan
Date: Thursday, April 22
Time: 2:00PM to 3:30PM
Place: Savery 135

Introduction to SAS

Instructor: Jaechul Chang
Date: Monday, April 12
Time: 10:00AM to 11:30AM
Place: Savery 149

Image Sources on the Web

Instructor: Dixielynn Gleason
Date: Tuesday, May 4
Lecture: 9:30AM to 10:30AM
Place: Savery 135

Introduction to SPSS 7.5

Instructor: Katherine McDermott
Date: Wednesday, April 14
Time: 10:00AM to 11:30AM
Place: Savery 135

Advanced Excel

Instructor: Emory Morrison
Date: Tuesday, May 4
Lecture: 2:00PM to 4:00PM
Place: Savery 149

Advanced SPSS

Instructor: Jeanette Burkett
Date: Friday, April 16
Time: 9:30AM to 11:00AM
Place: Savery 135

Introduction to the Access Database Program

Instructor: Ning Gu
Date: Wednesday, May 5
Lecture: 1:30PM to 2:30PM
Place: Savery 149

Beginning Mapping (Focus on Arcview)

Instructor: Deron Ferguson
Date: Monday, April 19
Lecture: 12:30PM to 2:00PM
Place: Savery 135

Intermediate Access

Instructor: Bob Colleran
Date: Wed, May 5
Lecture: 10:30AM to NOON
Place: Savery 135

Introduction to MATLAB

Instructor: Yi-Chi Chen
Date: Tuesday, April 20
Time: 1:30PM to 3:30PM
Place: Savery 149

Advanced Powerpoint

Instructor: Sara Kim
Date: Wednesday, May 12
Time: 10:30AM to NOON
Place: Savery 135

See Complete Class Descriptions on Pages 3 and 4.

If you would like to request academic accommodations due to a disability, please contact Disabled Student Services, 448 Schmitz, 543-8924 (V/TDD).

If you have a letter from Disabled Student Services indicating you have a disability that requires academic accommodations, please present the letter to Fred Nick at CSSCR so we can discuss the accommodations you might need for class.

CSSCR Classes Spring Quarter 1999

CSSCR offers free, non-credit classes to UW faculty, students and staff. Computer classes are also offered by University Computing Services (543-5970), UW Extension (543-2300) and the College of Engineering Continuing Education (543-5539). To sign up for CSSCR classes, call 543-8110, or stop by 145 Savery Hall during office hours, or sign up on CSSCR's Web page. <http://augustus.csscr.washington.edu/> Please note room number for location of class!

Beginning Stata

Stata is a statistical package on almost all computer platforms including PC, Mac, and Unix. In this class, we will discuss the user interface and how a beginner can start to use it. We'll look at: importing and exporting data, syntax commands, graphics plotting and regression analysis.

Instructor: Kyongwook Choi
Date: Monday, April 12
Lecture: 1:00PM to 2:30PM
Place: Savery 149

Introduction to SAS

We will talk about SAS (Statistical Analysis System) for Windows and the SAS procedures DATA and PROC. A demonstration of the Display Manager System will include temporary data sets, importing external raw data files, SAS data files using the DATA step, and how to print data, draw plots and run regressions.

Instructor: Jaechul Chang
Date: Monday, April 12
Time: 10:00AM to 11:30AM
Place: Savery 149

Introduction to SPSS 7.5

SPSS is a statistical program for the social sciences. We will look briefly at: recoding, creating, labeling, computing and selecting variables. Reading data in and out of SPSS will also be covered. The first part of this class will be lecture; a hands-on session will follow.

Instructor: Katherine McDermott
Date: Wednesday, April 14
Time: 10:00AM to 11:30AM
Place: Savery 135

Advanced SPSS

In this class, we will begin where our introductory class leaves off. We will discuss some of the options in the program you may have not used before.

It will also cover a few more procedures than the intro course and will discuss options available at SPSS not included in the license the UW maintains.

Instructor: Jeanette Burkett
Date: Friday, April 16
Time: 9:30AM to 11:00AM
Place: Savery 135

Beginning Mapping (focus on ArcView)

Learn how to map geographic data using Excel (simple) and Arcview (more advanced). This course will introduce you to geocoded data, thematic mapping, copying and pasting maps to your documents, managing files, and how to decide which software to use. It will emphasize a quick-start, hands-on approach to making a map with Arcview. You should have a basic understanding of Excel. Students will create a map during the class.

Instructor: Deron Ferguson
Date: Monday, April 19
Lecture: 12:30PM to 2:00PM
Place: Savery 135

Introduction to MATLAB

MATLAB is an interactive system whose basic data element is an array that does not require dimensioning. This allows you to solve many technical computing problems, especially those with matrix and vector formulations.

This class will cover basic operations of MATLAB and vector/matrix algebra using MATLAB.

Also, I will introduce MATLAB graphing and programming. Basic knowledge of linear algebra is required for the class.

Instructor: Yi-Chi Chen
Date: Tuesday, April 20
Time: 1:30PM to 3:30PM
Place: Savery 149

Introduction to Excel

This class is intended for anyone who has had little or no experience with Excel. We will focus on the program's basic spreadsheet functions & general charting capabilities.

Instructor: Theresa Fan
Date: Thursday, April 22
Time: 2:00PM to 3:30PM
Place: Savery 135

Image Sources on the Web

Attend this class if you want to find graphics which are original, of a reasonable size, or topical. DON'T attend this class to find items of prurient interest! We'll look at methods of searching, specific Web sites, and (briefly) manipulating images once you've found them.

Instructor: Dixielynn Gleason
Date: Tuesday, May 4
Lecture: 9:30AM to 10:30AM
Place: Savery 135

Advanced Excel

Learn how to use Excel Macros to construct viruses which will jam servers, cripple networks, erase other peoples documents, bring down Communist China, slow the Earth's rotation, invert the time-space continuum, and delete several dimensions that we don't often use. In fact, we will not be dealing with Macros at all, rather we will concentrate on some little-used features of Excel, including: statistical functions, some pivot table functions, perhaps some matrix algebra functions, "solver," and "auditor."

Instructor: Emory Morrison
Date: Tuesday, May 4
Lecture: 2:00PM to 4:00PM
Place: Savery 149

Class Descriptions Continued on
Next Page.

Class Descriptions Continued.

Intro to the ACCESS Database Program

We will review the concept of relational database and cover the basic features of ACCESS including construction and use of tables, forms, queries, reports, relationships, keys and more. This will not be an in-depth course in database modeling and query language. The focus will be for beginners.

Instructor: Ning Gu
Date: Wednesday, May 5
Lecture: 10:30AM to NOON
Place: Savery 135

Intermediate Access

Do you dream of being a Microsoft Access expert? See yourself effortlessly creating tables, forms, queries and reports as well as linking tables and sorting? This high-energy hour will not make you an expert. However, if you are a beginning student, it will show you how to teach yourself via the on-line help and wizards. Fundamental Access and database concepts will be covered as well as all basic Access functions (time permitting).

Instructor: Bob Colleran
Date: Friday May 7th
Time: 1:30PM to 3:00PM
Place: Savery 135

Advanced Powerpoint

If you want to learn about the bells and whistles of Powerpoint, this is the course for you. Based on your experience in putting together Powerpoint presentations, we will explore advanced Powerpoint features such as graphs, manipulation of clip arts, Quicktime movies, and other animation features. Basic knowledge of Powerpoint is a must. Please bring a PC-formatted diskette should you wish to save your work.

Instructor: Sara Kim
Date: Wednesday, May 12
Time: 10:30AM to NOON
Place: Savery 135

New from the Archivist

New On-Line Data

Electons to the United States House of Representatives 1878-1992. ICPSR 6311.
Time Use Longitudinal Panel Study 1975-1981. ICPSR 9054.
Current Population Survey, Annual Demographic File, 1998. ICPSR 2573.
Current Population Survey, Annual Demographic File, 1996. ICPSR 6907.
International Social Survey Program: Social Inequality, 1992. ICPSR 6493.
International Social Survey Program: Social Inequality, 1992. ICPSR 6493.
International Social Survey Program: National Identity, 1995. ICPSR 2474.
Surveys of Officer and Personnel and Military Spouses, 1985. ICPSR 6340.
Survey of Income and Program Participation, 1993 Panel. ICPSR 6886.
Survey of Income and Program Participation, 1993 Panel, Longitudinal File, ICPSR 2421.
AIDS-Related Written Court Decisions in Federal and State Courts, 1984-1989: [United States]. ICPSR 6502.
Voter Research and Surveys General Election Exit Polls, 1992. ICPSR 6102.
CBS News/NYT General Election Exit Polls: National File 1988. ICPSR 9138.
CBS News/NYT General Election Exit Polls: Regional File 1988. ICPSR 9137.
CBS News/NYT General Election Exit Polls: State File 1988. ICPSR 9136.
ABC News General Election Exit Polls: November, 1988. ICPSR 9118.
American Citizen Participation Study, 1990. ICPSR 6635.

New CD-ROMs

US Imports and Exports of Merchandise, Jan and Feb, 1999
US Exports Commodity Classification 1999
Congressional District Atlas 105th Congress of the United States
County Business Patterns 1995-96
Data on Crime and Community
Periodic Release of CDROM for New Releases from the Winter 1999
ICPSR Bulletin
Energy InfoDisc, Volume 3, Number 4, 1998.

Questionnaire

We are in the process of moving our on-line data to our new Server. We welcome any suggestions to improve our Web data access services. The following questions ask your opinions about current services. Please give us feedback on what you think needs to be changed about our on-line archive so that we may serve our academic community more effectively.

- 1) How often do you use the data archive at CSSCR or acquire outside datasets through CSSCR?
- at least once a month
 - at least once a quarter
 - at least once a year
 - seldom never
- 2) How often do you use the Inter-University Consortium of Political and Social Research (ICPSR) Homepage?
- At least once a month
 - At least once a quarter
 - At least once a year
 - seldom never
- 3) If you have used our data services, do you think the way we handle your data requests efficient and convenient?
- Yes No
- If not, what needs to be improved?
-
- 4) Most of our data files are now available through our Web site. Do you like the general structure of our file arrangement on our Web site?
- Yes No
- If not, what needs to be improved?
-
- 5) Do you feel that it is easy to browse our data files on-line?
- Yes No
- 5) Do you find our data search engine convenient and effective?
- Yes No
- 6) Are there any new functions you would like to see included on our Web site?
- Yes No
- If yes, please describe:
-
- 7) What statistical package do you usually use for data analysis? (You can choose more than one.)
- SPSS SAS STATA S-PLUS
 - Other. Please specify _____
- 8) Do you use our data with your classes?
- Yes No
- 9) Is there social science data we do not provide which might be useful to your research?
- Yes No
- If yes, what data? _____

Please send your completed questionnaire to CSSCR, Box 353345. Just fold and seal this page, address facing out. If you are mailing this from off-campus, please put a stamp on it. Thanks!

Center for Social Science
Computation and Research
Box 353345
University of Washington
Seattle, Washington 98195

The CSSCR Data Archive

The data archive at CSSCR includes a large collection of machine-readable files for more than 1000 domestic and international studies related to social sciences and humanities. We also keep extensive holdings of Economic Time Series and U.S. Census Data.

Most of our data come either from the Inter-University Consortium for Political and Social Research (ICPSR) of which UW is a member, or federal and state government agencies. We share a subscription with the Business School to the on-line information service Datastream. We also offer access to the Haver Analytics Databases for US and foreign economic statistics. Our data are primarily available to UW faculty and students. Some Census data are available to anyone.

The data at CSSCR are maintained in different formats and media. Each data set is composed of a series of different types of files including data files, SPSS or SAS data definition statements, codebooks and data dictionaries. Most data files are kept in ASCII format, some are also available in SPSS or SAS format. The CSSCR consultants can offer help in converting data files into a specific format you prefer and provide consulting in using statistical software.

The majority of our data information is accessible through our Center's home page from the UW computer network at: <http://augustus.csscr.augustus.washington.edu/archive1.html>. Our web archive is divided into 3 categories: ICPSR resources, Census resources and a list of CDROM based data. You can search data information by index of study titles, read and print the abstract of each ICPSR study, and can save downloadable data or documents to your PC or disks. Some of our data are stored on tape or CDROM, which you can get access by contacting the Data Archivist (Ning Gu, Archivist, phone: 543-8110, email: guning@augustus.csscr.washington.edu). The Archivist can also provide assistance in transferring data and data extraction from large files.

The Archivist can help you in identifying data files that meet your research or educational needs, whether the data is part of the CSSCR archive or available elsewhere. If you are not sure of what data is available, the Archivist can show you how to search the CSSCR on-line archive to locate data files and documentation. For each data set in our archive, a printed codebook is maintained in our main office. It contains detailed information about the data such as a full description of the study, sampling methods, technical information about the data structure, list of variables, variable descriptions, and the text of the questionnaire and possible responses.

On the following pages you will find the lists of studies/data on our archive.

ICPSR TITLE INDEX

1980 Census and 1978 - 1985 King County Election Data
ABC News/NHK Japan Poll, February 1993
ABC News/Washington Post Poll, December 1987
