From the Director

Welcome to another new year! CSSCR has had a busy Fall and is now experiencing a very busy Winter. We have had a tremendous demand for teaching time in our Labs this quarter. So if you are beginning to plan next quarter's classes remember to reserve your time in CSSCR labs early.

Our new fast machines are quite popular with our student clients and have turned out to be great number crunchers. CSSCR has 73 server-class machines available for you, our clients. So please use and enjoy! As always let us know if we can be of service. Have a great Winter!

FRED NICK
