From the Director......1
Class Schedule ............2
Class Descriptions...3,4

Winter Hours
Computer Rooms
Monday through Thursday: 8:00AM—5:00PM
We are closed on Saturday and Sunday.

Administrative Office
Monday through Friday: 8:00AM—NOON
1:00PM—5:00PM

Consultants
Vicki Aken, Public Affairs
Yen-Sheng Chiang, Sociology
Jon Glick, Geography
Gregg Harbaugh, Education
Sheila Huang, Pinch-Hitter
Jinyoung Kim, Political Science
Tim Pasch, Communication
Melissa Pico, Social Work
Jianguo Wang, Economics
Betty Zou, Jackson School

Administrative Staff
Fred Nick, Director
Kathy Davis, Fiscal Specialist
Tina Tian, Archivist
Markus Tsai, LAN Manager
Dixielynn Gleason, WP/DP Consultant
Deborah Lee, Office Assistant

Addresses
Center for Social Science
Computation & Research
University of Washington
1100 NE Campus Parkway, Condon 611
Box 353345
Seattle, Washington 98195 U.S.A.

From the Director
Well, the solstice is past and we’re now headed back into the light.
CSSCR has taken a different approach to our non-credit classes this quarter. Instead of Introductory and Intermediate courses, we’ve retooled the courses toward the completion of a task using the software. Instead of just “Intro to ArcGIS” we are offering “Spatial Statistics for ArcGIS.” We hope this new emphasis will optimize the utility of these short courses. Let me know what you think.
Have a great Winter.
Fred Nick

From the Archivist
New Online Data:
ABC News/Washington Post Poll #1, April 2006
ABC News/Washington Post Poll #1, May 2006
ABC News/Washington Post Poll #1, June 2006
ABC News/Washington Post Poll #1, August 2006
American Housing Survey, 1993: National File
American Public Opinion and U.S. Foreign Policy: General Public, 1979
Asiabarometer, 2004
CBS News/New York Times Monthly Poll #5, October 2004
Dimensions & Use of the Scholarly Info Environment, 2001
Early Years of Marriage (EYM) Project, Years 1-4, 1986-1989
Eurobarometer 62.2: Agricultural Policy, Development Aid, Social Capital, and Information and Communication Technology, November-December 2004
Information and Communication Technology, Nov-Dec 2004
Independent Regulatory Commissioner Database, 1887-2000
Israeli Election Study, 2003
National Survey of Local Gov’t Economic Development, 1998
National Survey of Economic Development Organizations, 1999
2006 Washington State Population Survey
Here are the ways you can sign up for classes: Call 543-8110; stop by 611 Condon during office hours; send e-mail to ascocarp@u.washington.edu, including the class you wish to take, your name and department; or sign yourself up on our Web page.  http://julius.csscr.washington.edu/

**CSSCR WINTER 2008 CLASSES**

**MS Word and the UW Publishing Rules**  
Instructor: Dixielynn Gleason  
Date: Tuesday, February 5  
Time: 8:30AM to 9:30AM  
Place: Condon 601G

**Spatial Statistics for ArcGIS**  
Instructor: Jon Glick  
Date: Tuesday, February 12  
Time: 4:00PM to 5:00PM  
Place: Condon 601G

**SPSS for Absolute Beginners**  
Instructor: Vicki Aken  
Date: Thursday, January 24  
Time: 9:30AM to 10:30AM  
Place: Condon 601G

**Database Creation Using Microsoft Access**  
Instructor: Melissa Pico  
Date: Wednesday, February 20  
Time: 5:00PM to 6:00PM  
Place: Condon 601C

**Excel Animations for Classroom Instruction**  
Instructor: Gregg Harbaugh  
Date: Thursday, January 31  
Time: 2:00PM to 3:00PM  
Place: Condon 601G

**Manipulating Census & ACS Data with SAS**  
Instructor: Tina Tian  
Date: Wednesday, February 20  
Time: 1:30PM to 2:30PM  
Place: Condon 601G

**Atlas TI for Interview Data**  
Instructor: Sheila Huang  
Date: Tuesday, February 5  
Time: 11:00AM to NOON  
Place: Condon 601G

**LateX for Dissertations**  
Instructor: JinYoung Kim  
Date: Thursday, February 21  
Time: 11:00AM to NOON  
Place: Condon 601G

**Keynote for Conference Presentations**  
Instructor: Tim Pasch  
Date: Wednesday, February 6  
Time: 2:00PM to 3:00PM  
Place: Condon 601C

**Easy Graphics In Eviews**  
Instructor: Jing Guo Wang  
Date: Tuesday, February 26  
Time: 10:00AM to 11:00AM  
Place: Condon 601G

**R Graphics vs. SPSS**  
Instructor: Yen-Sheng Chiang  
Date: Thursday, February 7  
Time: 1:00PM to 2:00PM  
Place: Condon 601G

If you would like to request academic accommodations due to a disability, please contact Disabled Student Services, 448 Schmitz, 543-8924 (V/TDD). If you have a letter from Disabled Student Services indicating you have a disability that requires academic accommodations, please present the letter to Fred Nick at CSSCR so we can discuss the accommodations you might need for class.
CSSCR Classes Winter 2008

CSSCR offers free, non-credit classes to UW faculty, students and staff. Computer classes are also offered by University Computing Services (543-5970), UW Extension (543-2300) and the College of Engineering Continuing Education (543-5539). To sign up for CSSCR classes, call 543-8110, or stop by 611 Condon during office hours, or use our Web page. Please note the room number for the location of your class!

MS Word and the UW Publishing Rules
This lecture will help you format your thesis/dissertation to conform with the UW Graduate School Style and Policy Manual for Theses and Dissertations.
Instructor: Dixielynn Gleason
Date: Tuesday, February 5
Time: 8:30AM to 9:30AM
Place: Condon 601G

Keynote for Conference Presentations
When presenting at conferences and doing job talks, a Powerpoint presentation is usually par for the course. Unfortunately, many academic ‘same-old’ Powerpoint presentations bore the audience and can reduce the impact of your research and hard work. Keynote is Apple's presentation software and it is, without a doubt, stunningly beautiful and easy to use. Don't let the nice interface fool you, however; Keynote is a very powerful tool that can showcase your research and deliver the impact that your hard work deserves.
If you own an Apple laptop, and foresee yourself presenting at a conference or doing a job talk this year, come and learn some new techniques and skills to present your work in the best (and most sophisticated) possible way: with Keynote!
Instructor: Tim Pasch
Date: Wednesday, February 6
Time: 2:00PM to 3:00PM
Place: Condon 601C

SPSS for Absolute Beginners
This lecture is geared towards giving the user the tools needed to begin using the package on a basic level immediately, as well as experience that will help the user learn more about the package independent of the course. In addition to an overview of the package, covered topics include: SPSS graphical user interface, data entry, data conversion, transforming and recoding data, data analysis, and graphing.
Instructor: Vicki Aken
Date: Thursday, January 24
Time: 9:30AM to 10:30AM
Place: Condon 601G

R Graphics vs. SPSS
In this lecture I will introduce a series of graphic skills in R, including simple two-dimensional plots, creative transformations of three-dimensional data into visible two-dimensional plots and some custom-made graphics that would fit researchers’ individual needs. I will also show how R graphics can achieve something that extant statistical software, such as SPSS, cannot.
Instructor: Yen-Sheng Chiang
Date: Thursday, February 7
Time: 1:00PM to 2:00PM
Place: Condon 601G

Excel Animations for Classroom Instruction
In this lecture, we will talk about using Excel to generate interactive graphics for instruction.
Instructor: Gregg Harbaugh
Date: Thursday, January 31
Time: 2:00PM to 3:00PM
Place: Condon 601G

Atlas.Ti for Interview Data
With the assistance of Atlas.Ti, you can visualize your interview/textual data with a different feel from various angles! This course will start with a review of basic skills followed by further topics including auto-coding, queries, data merge for team projects, and bundled projects.
Instructor: Sheila Huang
Date: Tuesday, February 5
Time: 11:00AM to NOON
Place: Condon 601G

MORE CLASS DESCRIPTIONS ON PAGE 4
Spatial Statistics for ArcGIS
This course will teach participants the basics of computing spatial statistics with ArcGIS.
We will cover statistical tests of clustering, hot-spot analysis, and mean center calculations. These relatively simple operations can add geographic sophistication to many types of analysis.
Instructor: Jon Glick
Date: Tuesday, February 12
Time: 4:00PM to 5:00PM
Place: Condon 601G

Database Creation Using Microsoft Access
Knowing how to create a database doesn't have to be a secret art form. In an hour, gain the tools you need to create your own database! This class is ideal for beginners in Microsoft Access and is tailored to give you the tools to create a simple, yet effective database for any business, organization, inventory, or research. Learn how to actually create tables, forms, queries, reports, set property values and customize the look of your database.
Instructor: Melissa Pico
Date: Wednesday, February 20
Time: 5:00PM to 6:00PM
Place: Condon 601C

Manipulating Census & ACS Data with SAS
In this class, the different data structures among decennial census (1970, 1980, 1990 & 2000) and ACS (American Community Survey) (2005 & 2006) will be discovered. Then we will discuss using SAS to read and manipulate these data.
Instructor: Tina Tian
Date: Wednesday, February 20
Time: 1:30PM to 2:30PM
Place: Condon 601G

LaTeX for Dissertations
This class is designed for those who want to use LaTeX for dissertation/thesis writing at the University of Washington. LaTeX, a powerful typesetting system, is becoming increasingly popular among the academic community, particularly for those who have complex notational requirements such as writing mathematical formulae. This one-hour introduction will address common issues arising from using LaTeX for thesis formatting: tables of content, figures/tables, landscape vs. portrait, full pages, appendices.
Instructor: JinYoung Kim
Date: Thursday, February 21
Time: 11:00AM to NOON
Place: Condon 601C

Easy Graphics In Eviews
Eviews 6 offers a very powerful graphics engine, allowing the user to have greater control over the display of data, and easy and fast categorical graphs. In this short class, we will learn the very basics of creating, adjusting and exporting Graphs in Eviews.
Instructor: Jing Guo Wang
Date: Tuesday, February 26
Time: 10:00AM to 11:00AM
Place: Condon 601G
The Center for Social Science Computation and Research (CSSCR) is an interdepartmental computer center in the College of Arts and Sciences at the University of Washington. CSSCR provides facilities and consulting support for computing activity related to teaching and research at the University. This newsletter is published quarterly, and if you have items you would like included, please contact Fred Nick at 543-8110, or fred@u.washington.edu. If you have a campus mail stop and would like to subscribe to this newsletter, or if you would like to UN-subscribe to this newsletter, please call 543-8110.
