[] Madigan Autism (ADOS, STAT) – MONDAYS TBD

[] Psych rotations eg: Pearl, Early Childhood Clinic

[] Others...Genetics/Dysmorphology / Foster Care / International Adoption / Migration

Psychiatry

- Alison Golembek has been sensational in taking on and teaching fellows;
- Bob Hilt has allowed a day or so (particularly regarding PAL/Partnership Access Line)
- Ray Hsiao is in charge of training, so he ought to be approached
- Arjun Bansal is someone outside SCH/UW (at either Virginia Mason or Swedish, I think) and Angela worked with him. He's great, and you should contact Angela to ask about this.
- Will French is another great option, although our DBP fellows have had less experience with him to date
- **Psychology:** *Both Neuropsychology (works with kids w/brain injury, radiation and chemo, seizures, etc) and Psychoed. (learning disabilities, ADHD, etc.) work with standardized instruments, etc. They're all very skilled providers and teachers*
 - Neuropsychology: Hillary Shurtleff
 - Psychoeducational: David Breiger & Jesse Bledsoe
- **Neuro: Acute clinics AAA** – more new patients
 - Goal for more localization and more diagnostic refinement

Psych

David Russel: interested in perinatal mental health

Brent Collette, the head of the ECC about you rotating through. He said that Dev Peds fellows have rotated through in the past, and encouraged you to reach to him: Collett, Brent brent.collett@seattlechildrens.org
