

MEDICAL STAFF TEAMWORK LEADERSHIP CARING AWARD

The Medical Staff TLC Award is presented to outstanding UWMC Physicians or Providers for excellent care, service, teamwork, and leadership.

Daniel Berg, MD

Professor

Division of Dermatology

The UWMC Provider Recognition Committee commends and congratulates Daniel Berg, MD for being selected as a recipient of a Medical Staff TLC Award.

Dr. Berg was nominated by a patient who stated:

“Dr. Berg was really personable. I actually “enjoyed” my surgery, if this is possible, because he was so fascinating, focused, and upbeat. I especially like how enthusiastic he was about his fellow and resident - he expressed a genuine support for each of them, shared an interesting bit about each of them, and I felt they had really lucked out having him for a mentor/educator, because it seemed to me that he was behind them 100% - and this isn’t always the case, not to this extent! Overall, I was so very impressed with how this unit works as a team. Clearly, everyone is great at their job, which made for a smooth procedure, from pre-op consult thru surgery - a well-oiled machine!”
