

DIABETES AND METABOLISM SEMINAR SERIES

FALL 2015 CALENDAR

| | | |
|----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------|
| 9/1/15 | Celine Riera, PhD University of California, Berkeley <i>Identification of sensory circuits controlling metabolism and longevity</i> | Orin Smith Auditorium 4:00pm |
| 9/3/15 | Stephanie Stanford, PhD La Jolla Institute for Allergy and Immunology <i>PTPN22: Model gene to unravel the interaction between genetics and environment in Type 1 Diabetes</i> | Brotman Auditorium 4:00pm |
| 10/7/15 | Mario Kratz, PhD Fred Hutchinson Cancer Research Center <i>The impact of fructose- vs. glucose-sweetened beverages on low-grade chronic inflammation and intestinal permeability: A randomized controlled trial</i> | Orin Smith Auditorium 4:00pm |
| 10/21/15 | Maki Tsujita, PhD Nagoya City University, Japan <i>Hyperglycemia modulates HDL biogenesis: Implication for diabetic atherosclerosis</i> | Orin Smith Auditorium 4:00pm |
| 10/28/15 | Samuel Klein, MD Washington University in St. Louis <i>Metabolically normal and abnormal obesity</i> | Orin Smith Auditorium 4:00pm |
| 11/12/15 | Lisa Tannock, MD University of Kentucky <i>Diabetes and CVD: Is SAA the missing link?</i> | Orin Smith Auditorium 4:00pm |
| 11/18/15 | Daniel Marks, MD, PhD Oregon Health & Science University <i>Neuroscience of illness: From basic science to world view</i> | Orin Smith Auditorium 4:00pm |
| 12/10/15 | DRC/NORC Retreat Keynote Speaker: Peter Tontonoz, MD, PhD University of California, Los Angeles <i>Nuclear control of lipid metabolism</i> | Orin Smith Auditorium 9:00am - 4:00pm |
| 12/16/15 | Matthias Hebrok, PhD University of California, San Francisco <i>Constructing and deconstructing insulin-producing beta cells</i> | Orin Smith Auditorium 4:00pm |

The Diabetes Research Center gratefully acknowledges the generous support of
THE GEORGE & MARGARET ZIVELONGHI FOUNDATION, JOHN M. GILBERTSON FOUNDATION and
KIRKLAND FRATERNAL ORDER OF EAGLES, LADIES AUXILIARY

NUTRITION OBESITY
