Splanchno-hormonal Mechanisms of Cystic Fibrosis Related Diabetes

Andrew Norris, MD, PhD

Associate Professor of Pediatrics & Biochemistry
Stead Family Department of Pediatrics
Endocrinology and Diabetes Division
University of Iowa

Dr. Norris' research is focused on how fetal over- or under-exposure to macronutrients incites poor metabolism. Dr. Norris' group works collaboratively with other University of Iowa investigators to better understand the pathophysiology of cystic fibrosis related diabetes.

Event Jointly Sponsored by the UW Cystic Fibrosis Research Translation Center.

*The Diabetes Research Center gratefully acknowledges the generous support of
THE GEORGE & MARGARET ZIVELONGHI FOUNDATION and
GRAND CHAPTER OF WASHINGTON ORDER OF THE EASTERN STAR*
