Columns and Icons Displayed on the Electronic White Board

OR – Operating Room

Plan Arrive – Estimated patient arrival time to the hospital

Plan Start – Scheduled surgery start time (Wheels in)

DDT DOCTOR DESIRED TIME (Indicates a start time based on surgeon request)

Len – Estimated procedure length (Wheels In to Wheels Out)

In – Actual time patient went into the OR (Wheels in)

Pt Type – Patient Type: IP/ IP-AM /OP /OP-BED

Loc – Actual patient location (in EPIC)

PRE – Patient checked in

MOR – Main Operating Room

POR – Pavilion Operating Room

MPAC – Main PACU

PPAC – Pavilion PACU

MRN – Medical Record Number

Pt Name – Name of patient having surgery

NAME ALERT icon will appear if there are similar/identical last names

Age – Patient's age (highlighted in Red if < 18 yrs old)

Sex – Patient's sex (male/female)

Procedure – Surgical procedure

The following icons may appear before the procedure name;

LASER PROCEDURE

ROBOT PROCEDURE

Surgeon – Primary Attending Surgeon.

ATTENDING SURGEON ARRIVED

Anesth Staff – Assigned Anesthesia Staff

Attending Anesthesiologist in BOLD

Anesthesia Resident/CRNA

Anesthesia Tech (italics)

Scrub/Circ – Assigned Surgical Tech or RNs

Status Displayed on the Electronic White Board

Patient is scheduled for surgery but is not in-house

Patient is scheduled for surgery and is in-house (IP) or has arrived from home.

Patient has arrived in the Operating Room (Yellow Background)

Procedure Start (Yellow Background)

Closing of the procedure has started (Pink Background)

Procedure completed (Pink Background)

RN Chart Issue: RN Charting not complete will have the entire row highlighted in pink and show the following status icon with the reason in the “Notes” column
