# Identify TBD Case

On occasion a patient may not show up on the merge patient list when starting a case. Here is a step by step on how to identify your patient on version 8

Start by clicking on the Emergency/Unknown Patient button. This will open a new TBD record that will need to be identified.

On the left side action buttons click on Identify TBD button which will open "Identify current case window"

Identify TBD Case

Identify Current Case

Name: TBD Sex: MRN: TBD20130619094941 Height: SSN:
